The screenshot shows a web browser window with the URL <https://media-frankfurt.teambeam.de/300/119671/public.html>. The page header includes the Media Frankfurt logo and the text "Excellence in airport advertising". The main content area is divided into two tabs: "Web-Upload" (selected) and "Account Privileges". Under "Web-Upload", there are input fields for "Receiver", "Your name", "Your eMail", "Subject", and "Message". Below these fields are sections for "Add Files" (with a search button and "Keine Dateien ausgewählt.") and "Transfer Options" (with "14 days valid" and "Password Protection" options). A "Files to be sent" section contains a large grey box with instructions: "Add files which you would like to send by using the file button above. On modern browsers you can also drag and drop files here." and a "Send" button. A footer note states "TeamBeam is a service by Skalo GmbH." and "© 2014 Skalo GmbH - Düsseldorf".
